SAN FRANCISCO NOTICES.

OBTAIN accurate rates of your chronometers is of the first importance, requiring from one who undertakes the task constant attention and proper instruments. We therefore apprise you of the all-important fact, that we do not rate by artificial horizon and sextant, but that we do possess and rate by the only transit and astronomical clock in the country. We are ourselves practical chronometer makers of experience in London, Liverpool, and New Orleans, and are established in San Francisco, long enough to have our abilities tested. We submit ervatory, we have found on trial to be invariably orrect, and have the fullest confidence in their abilities as chronometer makers." Simon Frazer Blunt, U. S. Navy, master steame
